NpIX Update, SANOG 5, 6-13 February, 2005 Dhaka, Bangladesh

The locations

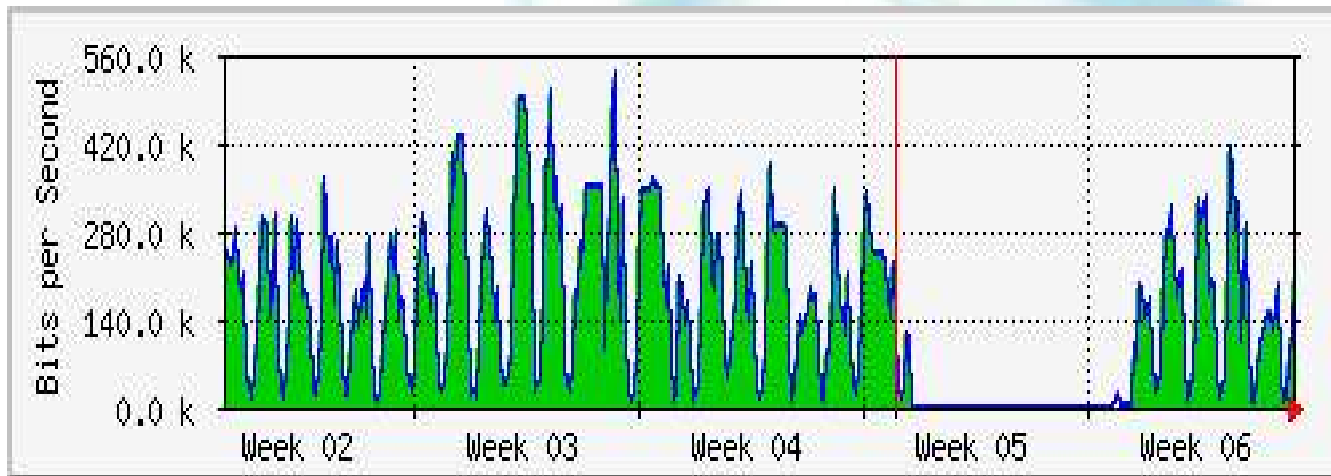

- Two switches (about 3 Kms apart)
 - Both Operational and passing Traffic
- The main location
 - 3548 high density switch
 - Two route collectors
 - Route Visibles at <http://lg.pch.net/>
- The two switches are not connected....
we are still discussing if that should be done.

New ?

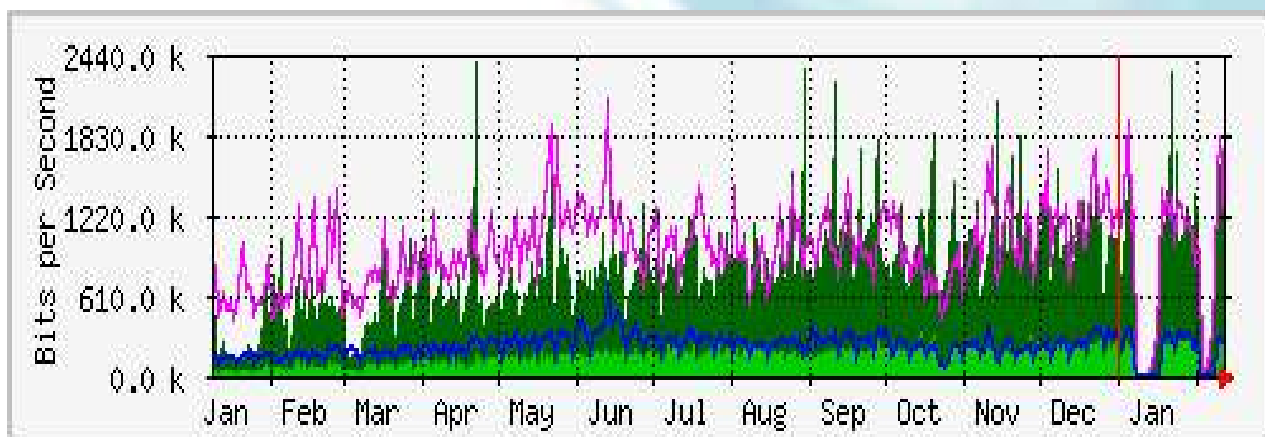

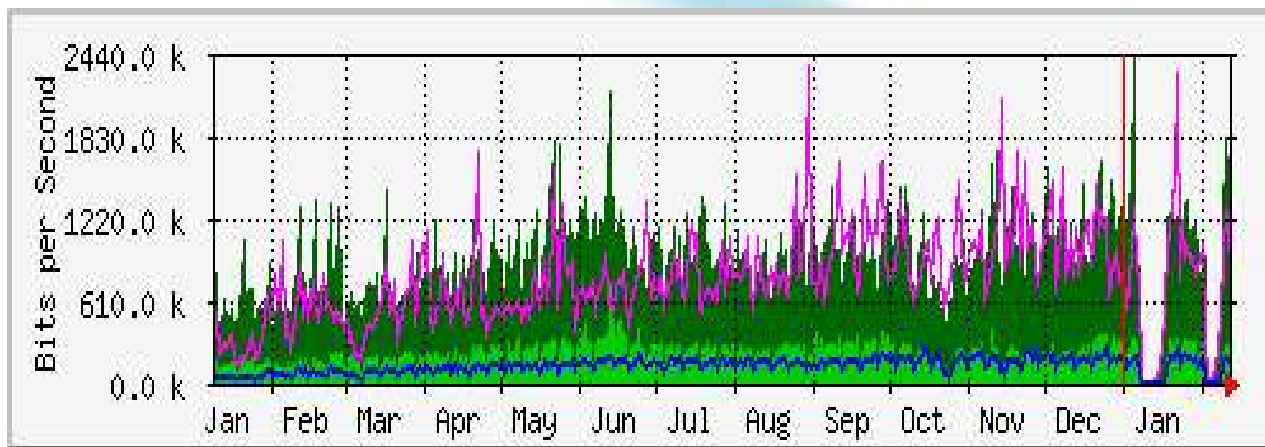

- First npIX General Meeting held in January 05
 - General Meeting to be held every six months
 - Board formalized
 - MoU Formalized
- Two New ISPs to join soon
- Other ISPs joining soon, now we have 8.
- You can view the traffice at <http://jwl.npix.net.np>

Traffic

- Significant increase observed switch 2

Switch 1 Traffic

What next ?

- v6 peering .. We've got the address space now
- Routing Registry
- Root Server anycast
- .np anycast
- Cache share... akamai
